Biosfera Sonora Exhibition was a collective art exhibition on the problem of endemic species in danger of extinction in the Altar Desert and Pinacate Biosphere Reserve.

By 2021, she got her bachelor degree with a thesis called “Vida subterránea de las cuevas de Sonora”. She has a collection of linocut prints, oil paintings on canvas, acrylic paintings, and sketches about the cave fauna of Sonora.

Denisse participated in the Biosfera Sonora exhibition, where she showed her work related to the lava tube of the El Pinacate Biosphere Reserve and Gran Desierto de Altar and the fauna (Fig. 1).
